	I understand that if I opted to receive a tamperproof copy (TPC) of the report, the TPC will be mailed within 24 hours of receiving the email from Inquiries.
	I understand that ALL mailed copies are not guaranteed in any given time frame.
	I understand that if my fingerprints are rejected due to quality issues, I will receive ONE free reprint and resubmission to the FBI.
	I understand that if my FREE RESUBMISSION is also rejected, I will need to pay for a third submission.
	I understand that a rejection is considered an FBI result and does not make me eligible for a refund.

- Results may take additional time if the FBI is experiencing issues that are beyond our control
- Electronic results are only available 24 hours after accessing them online, so be sure to save or print them immediately upon viewing.
- **Do not click the link from a computer that will not be able to print or save.**
- **If you do not access your results within 30 days, they will no longer be available.**
- Some fingerprints may be rejected due to the individual's print quality. The most likely causes for a rejection are fingerprint clarity and/or poor fingerprint image quality. This problem occurs with approximately 1-5% of the population.
- If your fingerprints have been rejected this is a circumstance that is beyond our control.
- We cannot guarantee results obtained through the FBI Channeler will be accepted outside of the U.S. Please check with your foreign consulate to make sure they will accept channeled results.
